

supreme NATURAL selection

COMPANY PROFILE

SNS is engaged in processing aromatherapeutic oils, natural cosmetics and supplementary dietaries production in the facility on 11.000 m² area in Tokat province, a strategic city that was selected as Turkey's one of the most important pilot regions in medical aromatic plant cultivation.

Being the first and leading company in wellness sector, with 22 years of experience and know-how, we have been serving in Turkey in the fields of phytotherapy, aromatherapy and homeopathy disciplines with our 4 brands: Alfheim, Awe Laboratories, Flamori and Nivalis.

Mr. Aydın ULUKAYA
Founder
Managing Director

Key Facts & Overview

Philosophy

Like people, plants have a spirit and a story of their own. Every product writes its own story. from the field to the store. If you can read the story of a bunch of lavender, you can be successful in creating the product that reflects its essence.

Our philosophy is to provide luxury and comfort to consumers who wishes to listen to the story of nature, do something good and valuable for their well- being within the grueling intensity of modern life.

Ambition & Strategy

SNS is committed to continuing its efforts to promote our business to the whole world, without compromising our principles, prioritizing local-regional values, and evaluating the unique richness of Turkey at international standards, as it has been since its establishment.

SNS has the honor of being one of the leaders of phytotherapy and aromatherapy applications in Turkey with its meticulous, quality-oriented team.

Team

Our principle is acting with simple structure and hard working staff in terms of management.

Being one of the few members of **IFEAT** a worldwide known prestigious federation of essential oils and aroma trade; SNS has been operating in the domestic and international market as a manufacturer and trader focused on holistic living and aromatherapy.

We are cooperating with our clients through:

- * **Franchising of SNS Brands**
- * **Laboratory and Research Support**
- * **Branding & Know-How Support**
- * **Education and Consultancy for Alternative Health Disciplines**
- * **Production of Finished Products with Industrial Capacity**
- * **Production of Medical, Cosmetics, Aromatherapy and Phytotherapy raw materials for Industrial Companies**

Services

With our successful R&D and P&D teams, our company is always in contact with the universities and has the ability to get its own herbs produced by the talented farmers of Anatolia.

Production

SNS has been producing with sections of Essential Oil distillation units, carrier oil pressing units, cosmetics section with cream, shampoo and lotion production; food section with dietaries, honey mixtures, drugs and teas.
